Cross Country

During this Meet, students worked with other students from Uptown School Complex to complete skills in strength in ability to build stamina for running further distances.

Soccer

Soccer is a sport where there are 11 players on one team that play against 11 players on another team. During this clinic, students began to learn skills to use on the field such as passing, dribbling, trapping and receiving the ball as well as scoring. Here you see students learning some of those skills.

Cross Country - Practice at Field
